

Information

The magazine „Public Health, Economics and Management in Medicine” was founded in 2003 by the Economy and Management in medicine Association under the financial support of the Supreme Council for Science and Technology Development of R.M. The initiator of foundation and edition of the magazine is the President of this Association, redactor-chief Constantin Yetsko, doctor habilitat in medicine, professor, department-chief of the Medical and Pharmacy University “N. Testemitanu”.

The magazine was registered at the Ministry of Justice of R.M. at 18.07.2003, registrational certificate № 145. Beginning from №2 the magazine was registered in Paris under the code ISSN 1729-8687.

Redactional Council includes specialists from the medical field of the Republic of Moldova and other countries (Rumania, Russia, France, Israel), and also 11 academicians of the National Academy of Sciences.

The direct aim of the magazine is the publication of scientific results, effectuated by medical specialists, devoted to the medical and social problems of Public health (morbidity, demographic indicators, disablement, health of population in the relation with environment and risk-factors, epidemiologic aspects of different diseases, physical development, health mode of life promotion and so on), Public Health System Reforms (Prime Medicine, Emergency medicine, hospital medicine, Preventive medicine, Medical Insurance), and also economic and financial aspects of management in medicine.

The magazine also publicities articles devoted to the Medical Law and Medical Psychology, taking into account the fact, that there are no special magazines for these are no special magazines for these directions.

The content of the magazine also includes the rubric ”Information” where informational materials are publicized (Decisions, Orders and Regulations), produced by the Ministry of Health. The whole medical community is interested in it.

According to the Supreme Attestation Commission Presidium decisions from 23.01.2004 and 03.03.2004, the magazine is included in the list of publications for the edition of scientific investigations results in the framework of doctor's dissertations.

Articles for publications are reviewed by different specialists.

Beginning from 2005 the magazine is edited under the financial supporting of the Health Ministry and National Scientific and Practic Center of Preventive Medicine.

The periodicity of edition is 4 issues a year (trimestrial).
